THE CHILIAN REVOLUTION.

Antofagasta, 19th—The Blanco Encalada has arrived here from Iquique. At 4 p.m. the commander of this war-vessel notified the Intendant of this town that, in consequence of the town soldiers having fired without provocation on a boat of the Blanco, he was determined to prevent traffic on the railway. At the same time he gave 48 hours' notice of bombardment.

The Intendant filed a protest against the attitude of the commander of the Blanco and gave explanations of the firing on the boat.

THE NEXT PRESIDENT.

So far General Mitre is the only candidate whose name is before the public, and his popularity in Buenos Ayres gives motive to suppose that his election is highly probable. He was unanimously elected President in 1862, when the enthusiasm of the public in his favor was much less than it is at present. Moreover, it seems generally agreed that his advent to power would give confidence to the commercial public and facilitate the reconstruction of the national finances. This feeling seems to be shared by the men who at present constitute the National Government, and who are evidently desirous to put the country on its legs again.

We take from the *Nacion* some particulars of the negotiations already set on foot, which will be read with interest by the foreign community.

"The first steps towards an arrangement have been taken and promise a successful issue. On the occasion of Gen. Mitre's visit to President Pellegrini, last Thursday, the latter assured him that he had been anxiously expecting his return, for the solution of the political deadlock, counting upon his influence to bring about a constitutional Government. President Pellegrini added that it was not his duty to make or unmake Presidents, nor to interfere in favor of any candidate, but simply to see that there was fair-play in the election, and to do his best to save the Republic from fresh calamities. He had had a troublesome task since last July to preserve the country from civil war, and although he could not flatter himself that he had pleased all parties he felt convinced that he had succeeded in preparing the way for a better order of things.

"Gen. Mitre replied that as the Republic was now in a deplorable condition it was the duty of all parties to spare no efforts towards reform, laying aside all feelings of enmity, and that to this end he was ready to give the fullest co operation.

"Yesterday an interview took place between Gen. Mitre and Gen. Roca on the same subject. The former began the conversation by saying that he was about to send a telegram from Europe to Gen. Roca congratulating him on his escape from assassination, but learned that the latter was not hurt and that there was no necessity for a telegram; he was now, however, happy to assure him how glad he was that the attempt against his life had no serious consequence.

"Gen. Roca replied that (as Dr. Pellegrini had already expressed himself) he was most anxious for Gen. Mitre's return, that he might assume the high post for which he was so eminently fitted. My only wish, he said, is to do what I can towards the good work, to put a stop to the present struggle, seeing that the country needs the hearty and united concurrence of all parties to remedy the effects of our past errors.

"In the conversation that ensued the two Generals agreed to a friendly combination, in which each would do his utmost to procure a pacific solution and re-establish the Republic on a sounder footing. Gen. Roca added "I neither ask for, nor offer you any conditions, but shall follow my conscience as an honest man, for the good of the country." Gen. Mitre replied that he had neither any conditions to propose. If difficulties should arise as to the fusion of the two parties he would do his utmost towards conciliation, as thereon depended the hopes of the Republic.

"On this understanding it was agreed that no pact or treaty should be drawn up. Each of the two Generals gave his pledge of honour to the other to carry out the engagements above alluded to. Each of them will inform the principal adherents of his party of the sentiments on which the arrangement is to be grounded. Public opinion will cordially ratify such an arrangement.

"Gen. Roca expressed his intention of resigning his post of Prime Minister in order to prosecute actively his labours for the election of General Mitre as President of the Republic. The latter approved of this resolution, and added that it would be well to make public the result of their conference. They then shook hands cordially, and the interview ended."

NO REMEDY.

Shin-plaster economists continue to cry out that some prompt remedy is required to rescue Buenos Ayres from the evils that surround us. They say, with some truth, that neither the Internal Loan nor Gen. Mitre has brought about the wholesale reaction that was expected in the money-market. But the remedy which they propose is simply a fresh issue of shinplasters, which would indeed cause a momentary relief, to be followed by a bigger crisis than that of the 6th inst.

So far from the Republic being short of money we have at present nearly 300 millions of currency, representing nominally a sum double that in use in the U. Kingdom. We see by experience that the more shinplasters we issue the less value they represent; it is a new kind of paper-manufacture, which must ultimately produce the same results as the Assignats in France.

Neither General Mitre nor anybody else can do anything to improve the currency and the market until they begin by liquidating all the banks of issue, calling in the shinplasters and giving us some better currency, whether it be Greenbacks or silver dollars. To cure the evil you must remove the cause. State banks and shinplasters have brought us to a lamentable position, and so long as they continue untouched there is no hope for the country, no remedy possible.

We very much fear that 1891 will not go out without another issue. In that case the crisis of 1892 will make men stand aghast, and business will be perhaps suspended not for six days but for six weeks.

Those persons who continue to advocate fresh issues of shinplasters have no idea of the terrible conflagration that such a policy must inevitably produce. We are apparently at the beginning of the real crisis, and the longer Government postpones the liquidation of the State-banks and the reform of the currency the more disastrous will be the result. Even at the eleventh hour we beg of our public men to pause in the mad career of shinplasters and State-banking.

LONDON TRUST COMPANIES.

Among the inventions af the 19th century we may give a prominent place to Trust Companies. The principles that guided them were two-fold: first, the public could not always rely upon stock-brokers as to the best class of investments; secondly, there is a number of younger sons of noblemen and other persons "of the highest integrity," who may derive a very good income as Directors of this class of companies.

These companies in an evil hour invested largely in Argentine securities of every description, and as Argentina has already begun a general suspension of payments or Moratorium the London shareholders are likely to make a most unseemly disturbance. The following persons are Directors in the Trust Companies:—

The actual amount of Argentine stocks held by these companies is not known, but there are 13 which have published statements showing that they hold £1,970,000, of Argentine, Buenos Ayres, Santa Fe, Cordoba, Entre Rios and Tucuman securities. This is exclusive of Cedulas or of guaranteed railways. The total capital paid-up of the 13 companies in question is 19 millions sterling, and the *Financial Times* estimates that the 25 Trust Companies hold £3,200,000 of Argentine stocks, exclusive of Cedulas.

Whether these companies were justified in embarking so largely in Cordoba, Entre Rios and Tucuman securities is a matter for the shareholders to determine, but it is notorious that the people of Cordoba, Entre Rios and Tucuman have not a shilling in such investments. The most casual observer cannot fail to see that these Trust Companies have a strong family resemblance; as we say in Spanish "el mismo burro con otras alforjas." The director of one is also director of others, and draws a salary from each, while the unfortunate shareholders, who never heard of Tucuman or Cordoba in their lives, rely upon the wisdom of Lord Cecil, Lord Monck, Lord Basing, etc., to see that their money is put out to the best advantage.

We incline to think that, although stockbrokers may have at times unwisely advised their clients the new system of Trust Companies may prove anything but an advantage to the public. The directors, of course, get their salaries, and will probably approve of Trust Companies, whatever we may think of them.

THE SITUATION.

Affairs in general looked very much better yesterday; there was a brighter and more hopeful tone in the market; in nearly all circles there was an excellent impression produced by the interview of the two ex-Presidents Roca and Mitre; people began to breathe more freely and look forward to more prosperous times; but in spite of all this the gold premium and stocks showed little or no improvement. We have argued all along that people attach altogether too much influence to political causes in the present crisis. For months past an agreement between the leaders of the two great political parties in the republic has been a foregone conclusion, and great as is the satisfaction all must gather from the fact that Generals Roca and Mitre are now working hand in hand, it would be idle to dismiss the fact that the primary causes of the financial crisis are entirely overlooked. Politicians may embrace, political compromises may be signed, universal suffrage may be guaranteed, honest governments may be elected, yet the value of the currency will not improve—for the simple reason that the causes of depreciation are not political, but essentially financial.

It is idle to expect any improvement in the currency as long as the country is burdened with an excessive issue of nearly 300 millions of paper; and the curse of this excessive issue is that in spite of its plethora it always rules scarce, thus inciting blind governments to further inconvertible issues on the plea that the circulation is not sufficient for market requirements. In this fashion we see that the very best bills in the market are quoted at 10 o/o minimum: people then rush at the conclusion that the circulating medium is insufficient and that fresh issues must be made to relieve the pressure. This may explain how infatuated finance ministers resort to the fatal policy of increasing issues. When General Roca left office in October 1886 gold stood at 10 o/o premium, very near par, and the currency of the country amounted to 70 millions: this amount was more than enough for the requirements of trade: in 1888 the currency stood at 200 millions, to-day it ranges from 280 to 300 millions: all this increase was voted to meet the growing requirements of inflation. With every fresh issue the value of the currency necessarily decreased, and in the light of the past and in the full view of the terrible light of the present situation we beg to inquire—what will the total issue of the currency amount to in December 1891? What will the value of the dollar be at that date?

What is vastly more needed to-day than a mere political compromise, which is after all an imperious necessity, is a public announcement from the Finance Office that the Government will refrain from the recently proposed repudiation embodied in "curso forzoso," metallic notes, and from fresh issues of paper. If the Government were to give any plausible pledges that no such fatal measures would be resorted to, under any circumstances, some material improvement might ensue in the market. To-day, let it be remembered, there is a conviction that the Patriotic Loan is a mere shift for a few months: merchants and others believe that ere long the National Government will be obliged to resort to more paper money to save its treasury and fourteen or more bankrupt provincial Governments. Let some official assurance be given to the country and affairs might improve—not otherwise. We do not mention any measures to improve the value of the currency, for they appear to be quite out of the question since the Patriotic Loan was launched. It might be too much to ask from the Government any legislation to relieve the misery of the masses and improve the value of the paper dollar. Politics must be saved before finances.

Meantime, the gold premium soars in the vicinity of 240 o/o and all wonder at such a price in the light of all the favorable news about politics. We shall be lucky indeed if the gold premium does not rise to 300 ere long, for the situation of the market could not be more critical, left as it is to its own resources and misgivings. We trusted too much to the Patriotic Loan, and we reap disappointment. We now see that it may not suffice to save rotten State banks, ward off "curso forzoso," or avert fresh issues; something more must be done to save the situation.

Affairs are in a passive condition to-day, but people must be blind not to see that we are again approaching the fatal incline that took the market to the brink of the financial chasm a fortnight ago. As a few straws on the current, we may mention that though the run on the State banks has ceased, the daily new accounts opened in the private banks are more numerous than ever—we need not go far to explain this phenomenon, which looks like a steady liquidation.

Taken all in all, the political situation has improved considerably whilst the financial situation remains in "statu quo", with every symptom of going from bad to worse. Let the men who govern the country not be deceived, and let them watch the current of financial affairs: they must abandon the idea that a political panacea will improve the currency. A "laissez-faire" policy is quite out of the question, since the whole crisis springs from financial mismanagement: until the Government liquidates all the State-banks and abandons state banking "in toto;" until the present 300 millions of currency are reduced to 60 or 50 millions, we shall not see the dollar in the vicinity of par: and until our public men are convinced of such facts no improvement need be expected: on the contrary, the gold premium will march to 300 p.c. and political matters will suffer by the financial dissolution.

Brokers on the exchange, who also have their own views about the crisis, have a very rooted opinion that the situation would materially improve if gold quotations were again allowed on 'Change. We are of the same opinion. The Government has no right to interfere with the freedom of contract, to put an end to a thoroughly legitimate business such as the selling or buying of that merchandise which is now quoted at 240 o/o premium over paper notes. Far better for the Government to respect all contracts and allow the gold business to be resumed. At present the whole market is rigged by owners of exchange shops; there is no market in fact. A man goes into the clandestine ring today and can put up gold ten or twenty points by buying ten or twenty thousand gold dollars: such a monstrosity could not exist if the volume of business went through a legitimate ring and prices were quoted on the black-board. If the legitimate business were resumed at the ring the gold price would fall or rise according to supply or demand; the market at least could only be rigged by very heavy dealers. To-day the gold price is at the mercy of Tom, Dick and Harry. We hope the Government will see the expediency of re-opening the gold business and putting an end to the present gold monopoly.

THE URUGUAY CRISIS.

MR. CASEY, THE CURRENCY AND PRESIDENT HERRERA.

The English papers received yesterday record the arrival in England of Mr. Edward Casey, and our London contemporary the *South American Journal* has been favoured with a visit from him, as recorded in the following article from its issue of February 21:—

"Mr. Edward Casey, the well-known River Plate financier, who called upon us this week, entertains much more favourable views with regard to the position of Uruguay than are at present generally held in this country. The natural wealth of the Republic, he assures us, is being so rapidly developed that it would now be in a most prosperous condition had it not been for the disorganised state of its finances, arising principally in consequence of the difficulties in which the National Bank became involved. These difficulties originated, Mr Casey informs us, as a result of the over-sanguine disposition of the original directors, who made large advances on securities which, although at the time they were looked upon as perfectly sound, are at the present moment unrealisable. This "lock-up" will, however, gradually be lessened, and before long the Bank should be in a position to carry on business as before at a substantial profit. But, to accomplish this, some ready capital is required, and we understand that a part of Mr Casey's mission to Europe is to endeavour to obtain financial assistance in this direction. Notwithstanding the circumstance that River Plate business is just now out of favour with European financiers, it is believed that this object will be accomplished, and, if the Bank can be organized upon a sound basis, it certainly seems to us that it will be in the true interests of the houses most largely concerned in "straightening out" the Uruguayan situation, to come to the aid of this institution, whose reorganisation undoubtedly appears to afford the best solution of the crisis at Montevideo. We quite anticipate, however, that, should such assistance be granted, it would be with an express stipulation that European capitalists have a voice in the direction of the Bank's operations. It will be recollected that, some six months ago, offers to capitalise the Bank were made on behalf of an English syndicate, but were then rejected by the Government on the ground that a National Bank should be wholly under national control. Time has probably shown to the Uruguayans the folly of the attitude which they assumed upon that occasion, and it is likely that they are now in a more reasonable frame of mind. The Bank is, it is stated, gradually resuming specie payments, in conformity with the decree recently published in our columns. Mr. Casey says that the currency question presents a very peculiar aspect. It is quite inappropriate, he observes, to speak of a premium on gold in Uruguay. What has really occurred is a depreciation in the National Bank notes, but these are, we are told, very seldom used in every-day business. The real currency is native silver and foreign gold coins, but both are very scarce: so much so, that copper and the smaller silver coins required are actually at a premium for change.

"With regard to the guarantee on the Midland Uruguay and other railways, Mr. Casey states that they will be duly paid so soon as he returns, as he hopes successfully, from his European mission. Mr. Casey also speaks very highly of President Herrera y Obes, who is, he says, doing his best for the country under circumstances of a most trying character."

The *Montevideo Times* says:—

"The above article does not require much comment on our part. Those of our readers who remember the famous 'open letters,' and the inflation policy of 1888 and 1889 will readily recognise that Mr. Casey still holds to his exploded system of mystification and misrepresentation. We need not go further than the declarations above recorded concerning the National Bank to perceive this. If that Bank had merely been unfortunate in its business, or its failure had merely resulted from too free an extension of credit, it would still be respected and even trusted, and its regeneration would then be hailed by the market as a desirable blessing. But there was more in it than this; there was notorious dishonesty on the part of the directors which has never yet been cleared up, whilst the over-sanguine advances of the Bank, to which Mr. Casey refers, instead of being devoted to the assistance of genuine commerce, were devoted to the fostering of speculation and the support of such highly speculative institutions as the National Company, of which Mr. Casey was President. Mr. Casey, even if candour itself, could hardly be expected to state this, but we should have thought our London contemporary would have been sufficiently posted in the real facts of the case to know what value to attach to his declarations on such a head. The opposition to the National Bank, at present general throughout the Republic, is solely based on a knowledge of its past history and associations. It has been a factor for evil and not for good, and, recalling the happy times when it was not and when our currency was unperturbed, there is no anxiety to see it resuscitated on its former basis.

"If, however, assurance could be obtained that it would in future be conducted on genuine banking principles, that there would be no more "special accounts," and no more connection with such speculative geniuses as Dr Reus and Mr Casey, the attitude of the market would speedily change, and its reorganisation would be heartily welcomed.

"This end would be best obtained by placing the Bank under the control of European capitalists, and that is a measure to which, as we have previously said, the Government is hardly likely to consent.

"Mr. Casey also adds his quota of mystification to the currency question. It is quite untrue that there has been a scarcity of foreign gold coins—except in the sense that all money has been scarce—and he politely ignores the existence of the notes of the five solvent Banks of Emission, which formed our paper currency before the National Bank came into existence, and which proved our mainstay and rock of refuge when that Bank failed to convert. If the currency had only been left to them the market might have been saved many of its troubles, and the general wish now is that the currency should be returned to them under its former conditions.

"What the connection is between Mr. Casey's return from Europe and the payment of the arrears of guarantee on the Midland and other railways we fail to see. Mr. Casey has nothing to do with the matter, which is purely a Government obligation. If they are counting on him to return with a loan in his pocket, we are afraid they are doomed to disappointment. So far as we have been able to learn, he returns as empty handed as he left. The astonishment would have been if he returned otherwise.

"No doubt President Herrera will feel duly grateful for the approbation of Mr. Casey, but we think the President is more likely to be judged in Europe by his measures and acts than by Mr Casey's assertions. And it is a sincere pleasure to us to take this opportunity of declaring that, however great the dissatisfaction felt with President Herrera at the close of the year, when Mr. Casey left for Europe, his more recent acts have produced a far pleasanter impression, and there are not unfounded hopes that the policy he is now showing, if earnestly pursued, will do much to restore his lost popularity and redeem the position of the Republic."

The *Statist* and some other London papers comment in the severest terms upon the alleged Casey mission.

ARGENTINE PANIC IN LONDON.

(From the *Times*.)

The continuous decline in Argentine securities, especially those not already dealt with by the London Committee, has at length led to action being taken by the Trust companies interested, whose aggregate capital is about 30 millions sterling. The initiative has been taken by Lord Eustace Cecil, and an important meeting was held yesterday to consider the best course to pursue with the object of bringing home to those responsible for the various obligations, which have been incurred by Provincial Governments and others in the Argentine Republic, that they cannot be let off the due payment of guaranteed interest as easily as some of them seem to suppose. As time goes on the impression has grown stronger that the London Committee were too easy in dealing with the national obligations of the Republic, about which, we admit, there are differences of opinion; but, be that as it may, there is a very strong feeling among the best-informed that many of the Argentine provinces are very rich, and that they can pay if they choose. At all events, a very strong committee has been formed with the object of classifying and dealing with all the securities referred to, and the first meeting will be held next Wednesday. It is intended to invite Dr Plaza to attend the meeting, with a view of eliciting from him whether he is empowered to afford any explanations of a re-assuring character. Failing that, it is the intention of this committee to request the Argentine Government, without loss of time, to send some one else to this country with full powers to discuss the situation, and with authority to agree to whatever it may be decided upon to do. While dealing thus briefly with the first phase of this movement it is as well to speak plainly, and let it be understood that the interests affected are too large to be trifled with, and that strong measures will be adopted, even to the extent of demanding the removal of the securities of the Argentine Government from the Stock Exchange official list, if action is not taken by the Argentine debtors referred to in the direction of doing their utmost to meet their obligations, and that with the least possible delay. The following is a list of the gentlemen who met on Monday at the office of the Foreign and Colonial Government Trust Company:—

Mr Frederick Cox, Army and Navy Investment Trust Company; Right Hon. Lord Hillingdon, Bankers' Investment Trust Company; Sir Charles E. Lewis, M.P., Consolidated Trust Company, the Municipal Trust Company; Mr Mackworth B Praed and Mr Stanley Boulter, the Founders' Stock and Share Trust; Mr William Trotter, the Foreign American and General Investments Trust Company; Mr Lawrence J Baker, General and Commercial Investment Trust; Lieutenant-General Ray, Governments Stock Investment Company; Right Hon. G. Shaw-Lefevre, M.P. Guardian Investment Trust Company; Mr Leopold Solomons, Industrial and General Trust; Mr Sligo de Pothonier, Investment Trust Corporation; Hon R Capel, Mercantile Investment and General Trust, the United States and South American Investment Trust Company; Mr Robert Monckton, Omnium Investment Company; Mr FitzHugh, River Plate and General Investment Trust Company; Mr Robert Benson, Merchants' Trust; Mr R Littler, Globe Industrial and General Trust Corporation; Mr R Fleming, the British Investment Trust.

A discussion on Argentine securities ensued, and a committee, consisting of the Right Hon. Sir John Lubbock, Lord Eustace Cecil, Messrs. Littler, Leopold Salomons, William Trotter and Stanley Boulter was nominated with a view to protecting the interests of holders of Argentine securities, especially those not already dealt with by the Bank of England Committee.

THE NAPOSTA COLONY.

VICE-CONSUL ANCELL'S OFFICIAL REPORT.

From the very first moment that the sad news of the failure of the crops became known to the members of the British Immigrants Aid Committee the greatest activity was displayed amongst its few and scattered officers, although, according to the statutes of this most humane association, no one having been once fairly provided with work has any more claims on the institute. And this is the reason why with ample funds in bank we have continually referred all such chronic cases to the support and protection of that most meritorious but notoriously hard-up brother charity—The British and American Benevolent Society. Still it was felt that in the case of the Naposta men something must be done, as well from the fact of their courageous struggle during two years as from the wholesale nature of the misfortune, which might even at the eleventh hour be more easily averted than remedied——for "prevention is better than cure."

Private interviews took place between our chairman Mr. John Drysdale and Dn. Pedro Gartland, who boldly asserted that in consequence of heavy losses during last two years he would not be able to continue feeding the people any longer, unless the London Bank advanced the money, as in a request presented last week to the manager, Mr. Fennessy.

He gave us eight days to reply, and it was then that I sounded the first note of alarm in these columns, foreseeing from that moment that nothing could be expected from the Viticola Company. Meantime Mr. Goodhall of Bahia Blanca had telegraphed up to the British Consul, Mr. Ronald Bridgetts, who, with commendable activity, despatched the British immigration agent Mr. Ancell to the scene of action, advising Mr. Gartland at the same time that he would hold him responsible for whatever might result from the inhuman course threatened publicly by Mr. Pene, the manager of the colony.

Complaints were received from several of the settlers as likewise from their worthy guide, philosopher and friend the Rev. Mr. Allen whose charges are most severe, viz: poor soil and bad harvesting, both of which are treated by Dn. Pedro as simply absurd. None but a born fool, he says, would risk so much capital on bad ground, whilst the only means to save the company from utter ruin was the careful gathering of the crops; and had they come up half as well as they promised last October the result would have astonished all of us. Unfortunately, adverse fate decreed otherwise; heavy rains set in towards the middle of December; a thing never before known in the history of those fair and fertile regions.

Mr. Ancell returned from Bahia Blanca on Thursday with a most luminous and exhaustive report on the present, past and future of the entire settlement—both English and Irish camps. He says that although poor and afflicted the spirit of the people is yet unbroken. They are steady and hardworking but discontented, as they consider themselves, rightly or wrongly, to be the victims of harsh and unfair treatment. This the special commissioner explains in two ways, viz: the difference is language and ideas rendering all but impossible that mutual confidence and good will which should exist between master and men, and without which no permanent success could be achieved in any enterprise in the world; second, and scarcely less important, was the fact that the provisions which at first were more than liberally supplied now bordered on the parsimonious, thus aggravating the alien's hard lot which, according to all tradition, should improve yearly. He recommends the immediate removal of the settlers to Mr Muller's lands at Pehuajo, where liberal terms are offered them.

The Naposta lands are too sandy for agriculture and only suited, in Mr Ancell's opinion, for sheepfarming. Therefore, to keep our people there another year were only so much waste of valuable time, were it even possible to come to terms with the Viticola company which, to say the least, seems more than doubtful. The Argentine Government agents had induced the poor people to leave home under false promises, and, no doubt, if due pressure were brought to bear on Dr. Pellegrini, the removal of the families, some 76 in number, might be effected without any serious trouble or expense. Messrs. Gartland might even contribute to free themselves from a bad bargain. The offer of the Colonizadora Argentina was most favorable, and a general meeting of British residents should be called to consider, discuss and ratify same without further delay.

We warmly congratulate Mr Ancell on his able report and feel certain that the difficulty which at first seemed insurmountable may be very easily arranged, if but we all unite as he suggests in a long pull a strong pull, and a pull all together. Otherwise the terrible scenes of two years ago will most certainly be re-enacted.

I may add that a meeting will take place at Messrs Drysdale's office, Calle Peru, at 4 p.m. on Tuesday, 24th inst., when Mr. Ancell's report will be read, with the proposal to remove the Colony as he suggests.

ST. PATRICK'S DAY IN ROSARIO.

Nothwithstanding the unfavourable weather on Tuesday (the Feast of St. Patrick), a large congregation mustered at the Parish Church.

High Mass was sung at 9 a.m. by the Rev. Father Patrick O'Shea, O. S. F., Father Sheehy acting as Deacon, another young member of the Franciscan Order as Sub-Deacon, and the Rev. Chaplain of the Caridad Hospital as Master of Ceremonies. Father O'Shea's Franciscan choir did good service singing their parts in the Mass.

After the Gospel, the Rev. Father Edmund, Passionist, ascended the pulpit, and taking as his text the words of Ezechiel "To whom art thou like in thy greatness"—proceeded to show that as one star differeth from another in glory, so also there be degrees of glory even among the Saints and eminent servants of God, and that Saint Patrick, the glorious Apostle of Ireland was one who shone with singular beauty, and whose greatness was reflected through the ages by the fruits of faith and of pure religion which, after surviving every kind of opposition, still flourish in the land he was sent to bring under the benign influence of Christianity. Wherever Irishmen have gone, and they have found their way to the remotest corners of the earth, they have arranged to have their Mass, and their Priest, and the consolations of their religion go with them.

The Rev. Father proceeded, in eloquent terms, to exhort his hearers to keep alive their faith in their own hearts and in those of their children, remembering that they had not been sent to this country by accident, but as the appointed instruments of Divine Providence for the propagation of the faith of St. Patrick.

They should be strong under trial; they should learn to suffer with patience and even to kiss the hand of affliction when, in God's good Providence that is given them for a portion, and to discern the loving hand of Omnipotence in all the affairs and events of their lives.

As the congregation was about to departf the soul thrilling strains of "Patrick's Day in the Morning" filled the sacred edifice, awakening in many a breast sweet reminiscenses of home and the years that are past, and effectually opening the taps of human kindness that lie enscounced in every true Irish bosom.

Father Edmund's sojourn here for a few days has proved a real time of refreshing to us all, and we but faintly express our feelings concerning the same when we tender him and his Rev. coadjutors our sincere gratitude and best wishes.—*Southern Cross Correspondent.*

Railway Items.

Several San Isidro residents have petitioned Government to get the Northern Railway to put up some sort of a structure on the west side of the line at San Isidro and San Fernando. According to the petitioners, there is no shelter on that side from sun or rain.

The Contaduria General have asked Government for authority to apply $28,370 of the net earnings of the Andine Railway towards covering the deficit in the working of the Chumbicha and Catamarca Line.

The Finance Minister has ordered the sum of $22,500 to be paid to the Central Chubut Railway as subsidy for the steamer Chasely.

We take the following item from the *Rio News*:—

"On the 4th inst. Sr. Joao Chrockatt de Sa Pereira was appointed director of the Central of Brazil Railway. Sr. Chrockatt de Sa Pereira has been director and engineer-in chief of the Sul de Pernambuco Railway,

"By a decree of the 26th ult. Governor Portella grants a 70 years privilege, with 7 per cent guarantee for 30 years, for a narrow gauge railway running from S. Fidelis to the Serra do Macapa, with the right to extend the same to Santa Maria Magdalena.

The Engineers Department advise the Government to approve the plans of Messrs Lockwood and Drabble's line of railway which starts from the junction of the Great Southern of Santa Fe and Cordoba and the Buenos Ayres and Rosario, running to the Acevedo station on the old Western Railway line.

RACING NOTES AND ANTICIPATIONS.

Although the entries are not large for to-day's meeting at Palermo, the reunion promises to be far from uninteresting. The nominal place of honour is occupied by the Premio Criadores, the classic race for 2 year old mestizas, but the public will no doubt be more attracted by the Premio Meteoro which counts, among its 5 supporters, with 4 of the best performers, so far, of the year.

Our selections are:—

Premio Satelite—Providencia.
" Aerolito—Vendetta.
" Criadores—America.
" Meteoro—Boqueron.
" Asteroide—Azul.
" Exhalacion—Xanthornus.
" Nebulosa—Miss Mary.

EDITOR'S TABLE.

Nice weather and lots of political talk yesterday, but no news to set the River Plate on fire, unless it were the rumour that the idea of merging all the State Banks in the Republic into one huge concern finds much favour in the Government House. Of course it does.

From Rioja, where they decree holidays as a sign of mourning for departed legislators, comes the news that some French mining explorers have discovered a Bonanza of gold there that puts California and Australia into the shade. The sanguine Gauls give the most wondrous account of their discovery; so wonderful that we hope there is a salt mine near the gold find, to enable us to swallow comfortably all that is said about the latter.

There is a letter for Mr. Harold Deans, C.E., with Mr. J. C. Saunders, 458 Calle Moreno.

As will be seen in another column, the date for the Rovers Polo Club races has been changed to Wednesday 25th, which will be a holiday.

There was an editorial (at least on one side) duel at the Tigre yesterday morning, and at the first shot our brother of the pen stretched his adversary on the ground badly perforated.

The interview between Generals Roca and Mitre on Friday was the subject of general conversation yesterday. The only really important part of it, as reported, that we can see is General Roca's alleged intention to retire from the Cabinet in order to be free to work out his part of the conciliation policy resolved on.

Goodness gracious! The banks and Bolsa will be closed again from Tuesday at 4 p.m. till Monday at 10 a.m. This will make *eighteen* idle days in this month. Such a surfeit of play-days in one month is enough to make the most ardent advocate of relaxation sigh.

Mr. Charles Villiers, the oldest member of the House of Commons, has been a diner-out for more than sixty years and has his stomach with him yet. Grand old cast-iron stomach it must be.

We are requested to announce that the Easter Vestry of the San Martin (F.C. Buenos Ayres and Rosario Railway) Church will be held to-morrow evening at 8.30 p.m. Rev. Pelham Ogle will preside.

The National Labour Office appears to be providing employment for applicants at a fair rate these bad times. A week ago it had 900 places open, and now they are reduced to 595, including 344 farming families, 79 labourers, and the rest Jacks and Joans of all trades.

The *Telegrafo Maritimo* says that the amount due by Baring Brothers to the Uruguayan Government, and which the new Finance Minister discovered by a mere accident, is £150,000: rather a nice windfall in the present position of the Montevidean Treasury. The fact that such a big sum could be due to the Government without the latter appearing to know a word about it suggests some decidedly queer reflections, especially as regards the system of book-keeping in the Government House over the water.

Miss Rose Murray, a talented actress from the London and provincial boards, will take the leading roles in Professor Martin's dramatic entertainment for the three English charities, to come off on April 4th. See full particulars in advertizement.

The Grand Old Man's chances of being Prime Minister of England for the third time (a destiny in which he is said to have as firm a belief as Napoleon the Great had in his star) appear to be increasing rapidly. At the Northampton election to replace the late Mr. Bradlaugh, the returns were:—

Manfield (Home Ruler)	5,436
Germaine (Conservative)	3,723
Majority for Home Rule	1,713

which is an increase of 1200 votes on Bradlaugh's majority in 1886.

Innocent minds are easily amused: The good people of Concordia are bearing up bravely against the crisis, on the strength of an approaching visit from Rafetto the bear man and his troupe. Rafetto is the Barnum of these latitudes. Mr Coaker is now Mayor "pro tem" of old Concordia, during the absence of Mayor Garcia.

More of it. Telegrams from Cordoba say that the Government is firmly resolved to issue ever so many millions of Hypothecary Bonds! "Vogue la galere."

Lottery tickets are a peculiarly dangerous investment just now. The police have pounced on a lithograph establishment at 780 Calle Cangallo where the tickets of the Montevideo, San Luis, Corrientes, Cordoba and Agentes Unidos lotteries have been for some time forged by wholesale.

A San Antonio subscriber tells us that they were drawing water for the flocks and herds there for seven months, until the last downpour of rain came to their relief.

Grandioso y Excepcional Remate en la Region del Trigo.

Las mejores tierras de la Provincia de Santa Fe, la floreciente Colonia "Ceres" sobre la estacion del mismo nombre del gran Ferro-Carril de Buenos Aires al Rosario y Tucuman, dista solamente nueva horas del puerto del Rosario. Con un nucleo de quinientos pobladores Con una capa de tierra vejetal de noventa centimetros de espesor y agua potable a tres metros de profundidad Dividida en Chacras quintas y solares. Por orden y cuenta de la Sociedad Colonizadora Argentina 1,000 chacras de 25 hectareas cada una, 20 quintas de 3 hectareas cada una, 150 solares del pueblo de 800 metros cuadrados cada uno. Sin Base! por lo que den sin base! Condiciones ventajosisimas para el pago. 1/3 parte al contado, el resto con tres años de plazo. pagaderos por anualidades con el 7 o/o de interes anual.
Escrituras matrices gratis.
La venta se efectuara sobre los mismo terrenos

El Domingo 12 de Abril,
a las 11 de la mañana.

Remataremos a la mas alta postura y dinero de contado por orden y cuenta de la "Sociedad Colonizadora Argentina" las tierras de la Colonia arriba mencionada que se componen de mil chacras de 25 hectareas cada una veinte quintas de 3 hectareas cada una, ciento cincuenta solares en el pueblo de 800 metros cuadrados cada uno.
Las tierras que ofrecemos en venta de esta Colonia son de las mejores de la Provincia por su inmejorable posicion como por la fertilidad de las mismas.
La Colonia "Ceres" esta convenientemente dividida en pueblo con sus solares, quintas y chacras, terreno muy alto y llano y esta cubierto en su mayor parte de pastos fuertes con algunos isletes de bosques cuyas maderas son quebracho, Naudubay, algarrobo, etc. etc. La capa de tierra vejetal es de noventa centimetros de espesor, encontrandose agua potable excelente a tres metros de profundidad. Su excelente situacion es de enorme ventaja pecuniaria para los agricultores pues queda sobre el gran Ferro Carril de Buenos Aires al Rosario, prolongacion de Sunchales a Tucuman, y tiene su Estacion propia del mismo nombre (Ceres) en el centro de la colonia la cual solo dista nueve horas del gran puerto del Rosario, lo que facilita y abarata el transporte y flete de sus productos.
Llamamos preferentemente la atencion sobre esta venta de los agricultores e inmigrantes que deseosos de labrarse un porvenir seguro y de resultados efectivos buscan en que colocar sus pequeños capitales para que ayudados por su trabajo personal les de una ganancia suficiente para el sosten de los suyos y al mismo tiempo una pequeña utilidad para ahorro, base y cimiento a una fortuna que se va agrandando y consolidando con los años; pues es sabido que en nuestro pais las principales fortunas tienen por origen la ganaderia y agricultura.
Tenemos que hacerle presente que la colonia "Ceres" cuenta ya con un nucleo de mas de quinientos pobladores que es un aliciente mas para los nuevos agricultores al mismo tiempo de ser una gran ventaja, pues no carecen de este modo de los articulos de primera necesidad ni estan espuestos a las penurias de un campo fronterizo a poblar,
Por ultimo, y sobre este punto llamamos la especial atencion de las personas que deseen adquirir tierras de la mencionada colonia y las cuales carecen de capital suficientes para ello; pues con una insignificancia pueden hacerse propietarios de las mejores tierras de la Provincia de Santa Fe, llamada con sobrada razon "La Region del Trigo" en vista de las condiciones excepcionales y grandes facilidades para el pago.
La venta se efectuara sin base alguna en lotes a gusto de los compradores, los cuales al firmar el boleto pagaran la tercera parte del importe total de sus compras al contado, abonando el resto en plazo de tres años por anualidades con el 7 o/o de interes anual firmando pagare. Los que paguen al contado gozaran de una rebaja de 9 o/o. Creemos que rara vez se les presenta oportunidad igual para la adquisicion de tierras de tal magnitud, lo cual no deben perder de vista.

Dear Sir,
You will be pleased to hear that I have used
Hayward's "Paste" Dip
on those awfully Scabby Sheep of mine with marvellous success. It not only seemed to cure the Scab by one dipping, as after the First dipping I did not see a Sheep scratch, but seemed to SOFTEN AND PENETRATE THE HARD SCABBY PLACES better than any Dip I have used in over thirty years experience. I fancy it the Dip only becomes known it will be extensively used. I am, yours truly,
ARTHUR FRANCIS.

Montevideo advices announce that a well-known steamship company has made an offer of $7259 to the United States Government for the Tallapoosa, having made a shaft in their workshops for her in anticipation of the offer being accepted. In any case they expect to be able to sell the shaft to the Government if the vessel be retained in commission.

At the meeting of shareholders of the Argentina del Riachuelo, which was held yesterday, the report and balance-sheet were read and approved. The president, Mr. Anacleto Resta, informed the meeting that owing to the great tact and efforts of the board the concern was now on a most prosperous footing, having succeeded in paying off all its debts, remaining with real estate that at a low valuation was worth the par value of all the shares in circulation. Sixty thousand shares had been already burned and 15,211 had been purchased for same purpose, so that only 24,789 shares now remained on the market. No further calls have been made on shareholders, and only the scrip, which lacked all but the first and second calls, was annulled.

Mr. E. Brandt's valuable produce circular was received from Rosario to-day and shews that fat cattle are offered so freely there that meat has fallen from 12 to 10 cents the kilo, thus giving a decline of say 2 dollars per animal. The circular embraces the month ended March 15th and during that period several important sales of stock were effected: 800 cows and novillos in La Carlota at 16 to 18 dollars respectively, 1000 cows and heifers from Cruz Alta at 15.50 and 13 dollar and a further lot of 1000 cows at 15.75, all picked from large herds in first-class condition, 400 novillos fattened on alfalfa at 25 dollars, another lot of 300 at 24 dollars, 1000 old cows for fattening at 10 dols., several lots of novillos to fatten at 14 to 16 dols., 3500 head of cattle "al corte" at 7 dols., and other sales at reserved price. In sheep some sales have been effected at 3 dols., and a little higher for fat animals. It is most difficult, however, to quote prices, as capones have been selling at 2.50 and "al corte" at 4.60 m|n, everything depending on the condition of the animals. With regard to the camps, they are coming round very rapidly, due to the late rains, and there seems every prospect of a good winter. The following are the prices current in the slaughter-house :—

	$
Beef	0.09-11 per kilo
Mutton	2.00 to 3.00 per carcase
Lamb	2.30 per carcase
Cow and sheep tallow.....	0.24 per kilo
Fresh cowhides	0.25 to 26 per k
Do. sheepskins (shorn...	1.00-30 each

The prices of produce in the "barracas" are as follows, subject to fluctuations owing to the unsteadiness of the gold premium :

	$
Wool.....	$6 to 7 per 10 k
Cowhides	5.00 per do.
Calfskins	4.50 do. do.
Hides mal deshechos.....	2.50 do. do.
Hair	9.00 do. do.
Sheepskins, estacion	0.60 per kilo
Lambskins	0.45 per kilo
Shorn sheepskins	0.40 per kilo
Lambskins	2.00 per dozen

Muy Señores Mios,

Tengo el gusto de comunicar a Vds. que las 4 maquinas de Esquilar sistema Wolseley me han dado un resultado satisfactorio y no queria darles este informe hasta no haber concluido con la esquila de borregas. La maquina trabaja bien, esquilamos con facilidad cualquiera oveja por mas fina y arrugada que sea: saca mas lana que la tijera y tiene la ventaja de no cortar, pero si en algunos casos rasguña descuidandose el esquilador. Estas lastimaduras sanan facilmente, y se hacen cada vez menos cuanto mas practica se adquiere. No he notado que se me hayan muerto animales por esta causa.

Convencido de su eficacia pienso colocar doce aparatos para la proxima esquila y creo poder hacer facilmente el trabajo con ellos. Puedo asegurar a Vds. que los esquiladores mas torpes aprenden facilmente, prefiriendolas a la tijera.

Pueden Vds. darle la publicidad que gusten.

Veterinary Medicines.

Mr. Wm. Kemmis, the well-known breeder of fine stock, writes as follows:—

Estancia Las Rosas,
F.C. Central Argentino,
10th Jan., 1891.

. . . I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS LIUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider, splendid.

Yours truly,

Self-Registering Recording Clock.
This clock serves to test employees in warehouses, hospitals, parks, prisons, etc., and in general for watching over every kind of undertaking, such as railways, factories, workshops, etc., also for villages, towns and cities and for police and custom house service. Not only is it a exact timekeeper but at the same time shows clearly at a glance the special watching service on which it is used. It shows on a slip of paper the hour and minute at which it started, how much time has been employed from one point to another, and in what direction the rounds have been made. As this clock cannot get out of order, it is an infallible inspector which cannot be influenced by anybody or anything, and also contributes to avoid conflagrations and other losses, and to prevent robberies, frauds and crimes.
